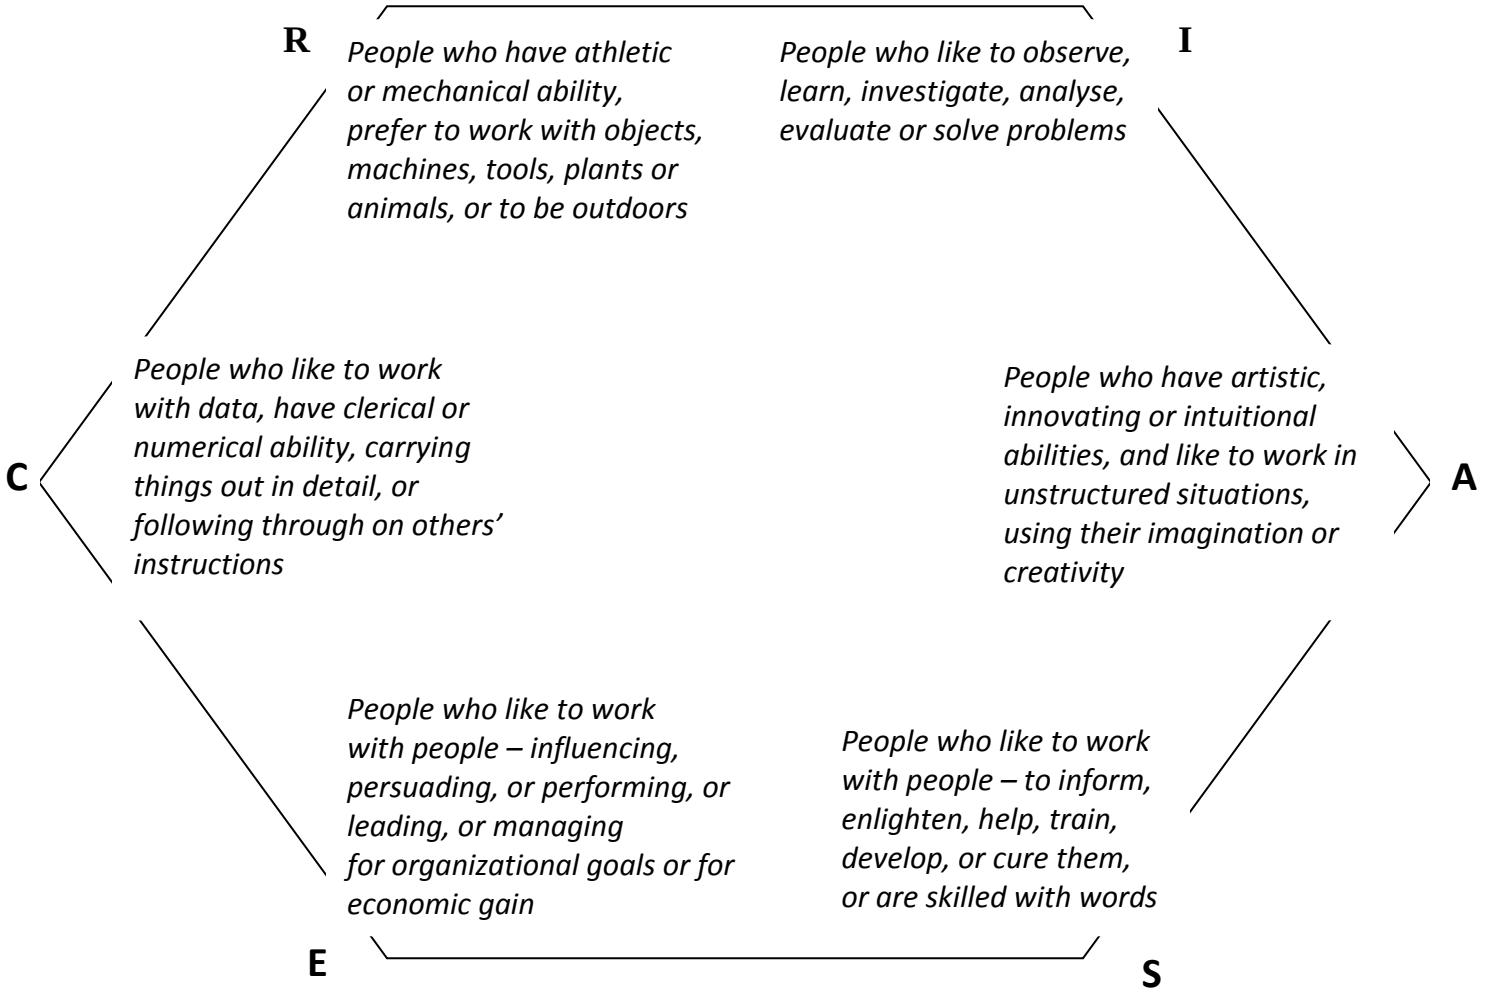
Physics	CSEC Physics
Pure Math	CSEC Grade 1 in Math and Grade 1 or 2 in CSEC Add Math
Sociology	CSEC Caribbean History and Social Studies
Spanish	CSEC Spanish, preferably with English B

CAREER ACTIVITY SHEET

Interest Awareness Exercise

The six-sided shape, on this page, is an aerial view of a room in which a two-day party is taking place. At the party, people with the same or similar interests have (for some reason) all gathered in the same corner of the room.

1. Which corner of the room would you instinctively be drawn to, as the group of people you would most enjoy being with for the longest time? (Leave aside any question of shyness, or whether you have to talk with them). **Write the letter for that corner in the FIRST space on your application form**

2. After fifteen minutes, everyone in the corner you have chosen leaves for another party crosstown, except you. Of the groups that still remain now, which corner or group would you be drawn to the most, as people you would most enjoy being with for the longest time? **Write the letter for that corner in the SECOND space on your application form**


3. After fifteen minutes, this group too leaves for another party, except you. Of the corners and groups, which remain now, which one would you most enjoy being with for the longest time? **Write the letter for that corner in the THIRD space on your application form**
